**Alliance Urgent Care** and Family Practice was founded by Mark Carroll, M.D. to be more than a mere ache or sprain clinic. "We treat our patients as people with whom we are building long term relationships, not just as one-time clients," says Dr. Carroll.

In addition to urgent care medical services, the practice specializes in continuity and comprehensive patient care, handling the full spectrum of acute and chronic medical needs. Says Dr. Carroll, "We not only treat broken bones, lacerations and common colds, we also manage long term conditions such as obesity, hypertension and diabetes, and strive to diagnose heart disease before a heart attack, vascular disease before a stroke, and cancer before it spreads!"

The clinic has been both locally and nationally recognized for its sound, complete care by multiple trusted authorities including internet raters such as Health Grades, Vitals and Rate MD's, publications including Colorado Springs Style, Medical Economics and Top Family Doctors by the Consumers' Research Council of America, and by multiple local television news programs as a "go-to" clinic for expert medical opinions on medical issues facing the community.

Alliance is located in the growing northeast section of Colorado Springs by design. Dr. Carroll expounds, "We're excited to have our practice grow to serve this new part of our community."

Dr. Carroll received his Doctorate of Medicine from Creighton University, followed by a rotation in cardiology at The Royal Brompton in England, trained in a number of sub-specialties, and is board certified with the American Academy of Family Physicians. Complementing this preventative care background is Dr Carroll's urgent care experience as he also deployed as a wartime physician with the U.S. Air Force in both Operation Enduring Freedom and Operation Iraqi Freedom.

That's experience you know you can trust. ■
